sign & seal labels

We believe that a label is what any brand needs to stand out.

Therefore, we produce labels that work on the senses with visual and tactile effects.

We create labels that 'dress to impress' for food, beverage, personal, home care, retail, wine, beer, spirits, paint, pharmaceutical, etc. by making use of fit-for-purpose materials.

We make use of our state-of-the-art technologies such as flexographic printing, digital printing and finishing technologies such as silkscreen, hot-foiling, embossing and debossing.
